Adaptive screen brightness. Saving energy and money.

WHEN FUNCTION IS KEY!

The CTOUCH Laser air+ is a masterpiece when it comes to craftsmanship, technology and making touch accessible to the world. Integrating innovations like uWand and Beacon receivers, opening a complete new and unique experience in a touch world. The technology embedded in the uWand interactive gesture remote giving users' fluid and accurate direct control, turning into an intuitive hybrid controller. Joining forces with partners like JBL®, integrating sound designed, tuned and build by Harman, providing unprecedented audio. Take meetings into a new dimension. Experience the JBL Audio System, an amazing JBL designed speaker system for the CTOUCH Laser air+. You've never experienced high-output audio like this from a touchscreen display!

Direct Webcam USB connection

USB connection on top backside for webcam or microphone connection enabling to video conference instantly.

7 years warranty

Multiple touch inputs

Freedom to connect multiple devices with touch capability- up to 4 devices!
